The following is an examiner's statement of reasons for allowance: Chuang 5,800,311, discloses a wrist exerciser.

Yu discloses an illuminating had exerciser.

Kuo discloses a self generating wrist ball.

The prior art however, fails to show or suggest, as detailed in claim 1, " a transmitter unit coupled to a casing of the wrist exerciser and comprising a sensor for detecting rotational speed of a rotor rotatably supported inside the casing of the wrist exerciser and issuing a detection signal, and a processing circuit receiving and processing the detection signal to provide an output of the exercising data; and a transmission cable having a first end connectable with the output of the processing circuit to receive the exercising data and a second end engageable with a counterpart device of the external device for forwarding the exercising data to the external device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
